

WELSH BACCALAUREATE National (Post-16)

Community Challenge Hair and Beauty Pamper Sessions

Available for assessment from September 2015

Pamper Sessions

PURPOSE

The purpose of the Community Challenge is to develop learners' skills, whilst encouraging learners to identify, develop and participate in opportunities that will benefit the community. During the Community Challenge learners will explicitly develop skills of **Planning and Organisation** and **Personal Effectiveness** and apply them in an appropriate manner.

BRIEF

We all have a social responsibility and should be aware of the challenges and opportunities we may meet on a personal level in our local community: the local area, the nearest village, town or city. During this Challenge you will focus on real-life concerns and needs through activities which aim to make a difference in the community. You will need to consider whether you need to develop and extend your skills, knowledge and understanding to be able to successfully meet the needs of the Challenge.

Learners studying within the Hair and Beauty sector have many opportunities to provide services that can bring benefits to a wide range of community groups. Various activities/ programme of events can have a positive impact on various groups in the community helping to improve their quality of life, encouraging health and well-being.

Demonstrate your skills in Planning and Organisation and Personal Effectiveness to identify and provide pamper sessions for a community group of your choice in your local area. This will involve you as an individual or as a member of a team (3 – 6 members) identifying, planning, organising and carrying out activities/ programme of appropriate events for your chosen group in the community. You are required to consider what the clients might need and what you can offer in terms of level 2 treatments, the resources needed, where and when your activities/events will take place and the costs involved. You must actively engage with the activities/events over a period of at least 10 hours.

Remember you will need to consider:

- What skills are required to complete this task?
- What skills need to be developed in order to complete this task?
- Time available
- Health and safety issues
- Support and guidance required
- Impact on the local community

This Challenge will enable you to develop as effective and responsible members of your local community. In completing the Community Challenge you will be able to recognise the contributions you can make towards improving the community in which you live and the benefits this will have for yourself, for others and for the environment. You will demonstrate how you can create and manage an action plan when developing opportunities for the community and with the use of feedback can reflect and review your personal performance in planning and carrying out the activity.
