HOW WILL YOUR GRADES BE CALCULATED THIS YEAR?

STEP 1: COLLECTING YOUR GRADES

Your school or college will have submitted their Centre Assessment Grades and Rank Ordering for you and your classmates.

Your teacher/lecturer will have based your grades and ranking on a wealth of information including coursework, mock exams, homework etc. So, despite you not sitting an exam this summer, your years of hard work will have been considered.

STEP 2: ANALYSING YOUR GRADES

Our Research team, alongside our Subject Experts will be reviewing the data submitted, and will be applying a special standardisation processes.

This statistical approach will be approved by Qualifications Wales to ensure that the grades awarded are in line with previous national results. This will also consider factors such as your school or college's previous performance.

Our aim is to ensure that you receive a fair grade this summer for all your hard work - your grades will be of equal value to other years.

STEP 3: COLLECTING YOUR RESULTS

Results will be issued at 8:00am on the following days:

13th August: AS, A level, Advanced Welsh Baccalaureate and Level 3 qualifications

20th August: GCSE, National/Foundation Welsh Baccalaurreate and other Vocational qualifications

Please check with your school or college to confirm the arrangements for you to collect your results.

If you wish to appeal your results, further information will be available to you in early August.
