

Approaches to fieldwork WJEC GCSE Geography

Further guidance on how each of these approaches could be taken in a variety of contexts (e.g. coastal, urban or river) is provided on the WJEC website.

For those teachers who wish to plan fieldwork over the longer term, WJEC confirms that the following approaches to fieldwork should be taken in the following exams series:

Year of assessment	Methodological approach	Conceptual framework
2018	Geographical flows	Cycles and flows
2019	Qualitative surveys	Place
2020	Use of transects	Spheres of influence
2021	Geographical flows	Mitigating Risk
2022	Change over time	Sustainability
2023	Use of transects	Inequality
2024	Qualitative surveys	Cycles and flows
2025	Change over time	Place
2026	Use of transects	Inequality
