## Fieldwork Statements

Centres must provide to WJEC a Fieldwork Statement that details the fieldwork carried out by learners from the centre in each assessment cycle. This is outlined in our AS and A level specifications.

Centres entering candidates for AS or A level qualifications in Geology will be able to make their fieldwork statement by completing the form that will be available to download from the AS/A level Geology [subject page](#) of the Eduqas website. The fieldwork statement must be submitted to WJEC by **15<sup>th</sup> May**. Failure to provide a fieldwork statement will be treated as malpractice and/or maladministration by WJEC. The completed statement should be sent to the subject support officer for Geology at [geology@eduqas.co.uk](mailto:geology@eduqas.co.uk).

## Eduqas AS and A level Component 1

These components involve the use of geological specimens and equipment. Teachers will not be permitted to be in the examination room during the sitting of these components. Full instructions for the running of these components will be issued with the specimens. Centres will receive the following which should be opened on arrival:

- instructions for examinations officers
- instructions for candidates
- instructions for technicians and invigilators
- photographs of geological specimens
- geological specimens

The geological specimens should be checked on arrival to confirm that the correct number of specimens of each type are present as per the accompanying photographs.

All materials relating to the AS and A level Component 1 examinations will arrive in centres on the following dates.

Examination	Date of arrival of materials in centres	Examination date
AS Component 1 (B480U10-1)	week commencing 20 <sup>th</sup> April 2020	Monday 11 <sup>th</sup> May 2020
