## **Introduction**

This document provides details of the adaptations to the assessment of our vocational and other general qualifications in 2021/22 including our Entry Level Certificates, Level 1/2 Vocational Awards and Level 3 Applied Certificates and Diplomas. **It replaces any previously published information on adaptations to assessment for the 2020/21 and 2021/22 academic years and overrides published information in the specification and sample assessment materials.**

The adaptations published in this document are for the academic year 2021/22 only and it should not be assumed that adaptations to assessments will continue in 2022/23.

Adaptations have been designed to assist with mitigating the impact on teaching, learning or assessments caused by the coronavirus (COVID-19) pandemic. We are aware that the impact of the disruption varies between centres, depending on the qualifications that they offer and their approaches to teaching and learning, with some centres and subjects more affected than others.

We continue to work collaboratively with Qualifications Wales and other awarding organisations to monitor the impact of the Covid-19 pandemic and to identify and consider any contingency arrangements which may be necessary in the event of any potential worsening public health situation that results in significant disruption to a learner's ability to take their assessments.

Should you have any questions or would like further support with the delivery of your qualifications, please contact us, we will be very happy to support you.

### **Clarification of how Unit CAGs and Unit TAGs will contribute the award of Vocational Award qualifications in 2022**

We have collected Unit Teacher Assessed Grades (Unit TAGs) for learners who were part-way through a Level 1/2 Vocational Award qualification in Summer 2021. We also awarded Unit Centre Assessed Grades (Unit CAGs) in 2020 to learners who were part-way through a Level 1/2 Vocational Award in Summer 2020.

Unit grades awarded to learners based on a Unit CAG or Unit TAG will be combined with unit grades awarded for any other assessments completed as normal to award Vocational Award qualifications.

For the avoidance of doubt, this means that unit grades awarded through the Unit CAG or Unit TAG process **will** contribute to the award of the overall qualification.

### **Clarification of how Unit TAGs will contribute to the award of Applied Diploma qualifications in 2022**

We have collected Unit Teacher Assessed Grades (Unit TAGs) for learners who were part-way through a Level 3 Applied Diploma qualification in Summer 2021.

Unit TAGs have been allocated a uniform mark (UMS); these UMS will be combined with UMS from any other assessments completed as normal to award the Applied Diploma qualification. For the avoidance of doubt, this means that UMS awarded through the Unit TAG process **will** contribute to the award of the overall qualification in 2022.

No UMS have been issued for the Qualification TAGs awarded to Applied Certificate learners in 2020 and 2021 and therefore Qualification TAGs **will not contribute** to the award of the overall qualification in 2022.

## Entry Level Certificate in English

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to assessment in 2021/2022

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a TAG for Summer 2021 and who want an opportunity to sit the assessment.

Assessment is therefore available in January and Summer 2022.

## Entry Level Certificate in Welsh

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to assessment in 2021/2022

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a TAG for Summer 2021 and who want an opportunity to sit the assessment.

Assessment is therefore available in January and Summer 2022.

<b>Unit 1 External Examination (25%)</b>	There are no changes to the assessment of this unit.
<b>Unit 2: End of unit tests (45%)</b>	<p>Task 1 – Reading: Creative response to a short story, novel or play. Centres can choose a short text e.g. a short story rather than a longer novel or a play.</p> <p>Assessment has been designed to give centres flexibility regarding their delivery model and timetabling of assessments. Where a candidate or group of candidates is unable to sit an assessment, the centre can reschedule the assessment for a later date.</p>
<b>Unit 3: Practical Assessment (30%)</b>	<p>Candidates will only be required to complete <b>one</b> of the two oral tasks, either one individual task on a specific subject of the candidate’s choice or one response and interaction (group discussion) on a Welsh television programme or film.</p> <p>Where the centre chooses the group discussion, the television or film studied should not be more than one hour long.</p> <p>The streamlining of assessment to only require candidates to complete one of the two oral tasks will allow more time for teaching and learning and is in line with the arrangements in place for Summer 2021.</p> <p>Assessment has been designed to give centres flexibility regarding their delivery model and timetabling of assessments. Where a candidate or group of candidates is unable to sit an assessment, the centre can reschedule the assessment for a later date.</p>

## Level 1/2 Vocational Award in Constructing the Built Environment (2014)

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a CAG/TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

#### Unit 1: Safety and Security in Construction

External examination (25%)

There are no changes to the assessment of this unit.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

This assessment is therefore available in January and Summer 2022.

#### Unit 2: Practical Construction Skills

Centre marked controlled assessment (50%)

The number of skills candidates are required to demonstrate has been streamlined from three to two.

Candidates will also not be assessed on their interpretation of technical sources of information. (AC1.1)

The time allowance for this assessment is to be reduced from 14 hours to 9.5 hours.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

External moderation is therefore available in January and Summer 2022.

	<p>Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.</p>
<p><b>Unit 3: Planning Construction Projects</b></p> <p>Centre marked controlled assessment (25%)</p>	<p>There are no changes to the assessment of this unit.</p> <p>An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.</p> <p>External moderation is therefore available in January and Summer 2022.</p> <p>Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.</p>
<p>The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.</p> <p>However, disruption and centre closures in 2020/21 means that candidates partway through their qualification may not have had access to specialist workspaces and equipment in centres to develop and refine their practical skills.</p> <p>The adaptations to Unit 2 should assist centres to mitigate this disruption by reducing the amount of time that candidates need to spend practising and refining their skills ahead of assessment. The reduction in assessment in the number of skills needing to be demonstrated during assessment has also led to a reduced assessment time of 9.5 hours, freeing up additional time for teaching and learning.</p>	

## Level 1/2 Vocational Award and Certificate in Creative and Media

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a CAG/TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

<p><b>Unit 1: Creating a proposal in response to a brief</b></p> <p>External examination (25%)</p>	<p>There are no changes to this unit. However, the Unit 1 brief will be released electronically (for download from the secure website) in October rather than December.</p> <p>This external assessment is available in March 2022.</p>
<p><b>Unit 2: Creating an Outcome in response to a Brief</b></p> <p>Controlled Assessment (25%)</p>	<p>Centres set the context for the task and can adapt it for assessment in Summer 2022 by setting a smaller/shorter (in duration) or simpler product than normal. For example:</p> <ul style="list-style-type: none"> <li>• in Music this could be a shorter composition or performance</li> <li>• in Design and Technology options (2D/3D/textiles etc), this could be a smaller or simpler item.</li> </ul> <p>The assessment criteria remain unchanged and candidates will not be penalised for producing a shorter/simpler product than previous cohorts.</p>

<b>Unit 3: Skills development units</b>  <b>Controlled assessment (50%)</b>	Centres set the context for the task and can adapt it for assessment in Summer 2022 by setting a smaller task.
<p>The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22. However, disruption and centre closures in 2020/21 means that candidates partway through their qualification may not have had access to specialist workspaces and equipment in centres to develop and refine their practical skills.</p> <p>Releasing the Unit 1 brief earlier will allow centres greater flexibility to timetable the research activity. Centres can choose to split the time so that some initial research activity is undertaken at times when practical activities may be limited, and some hours are spent on this shortly before the exam in March. Many centres use the Unit 1 brief as a stimulus for Unit 2, so releasing this early should also help centres in planning their delivery.</p>	

## Level 1/2 Vocational Award in Designing the Built Environment

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to unit assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a CAG/TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

#### Unit 1: Planning Potential of Construction Projects

Externally Marked Controlled Assessment 25%

There are no changes to the assessment of this unit.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment

This assessment is therefore available in January and May 2022.

The January 2022 assessment will be available from 4 January on the WJEC secure website and should be completed by the candidates within 3 weeks of being opened by the centre. The assessment may be taken in time blocks determined by the centre taking into the account the submission to the examiner no later than 1 February.

The May 2022 assessment will be available from 1 May on the WJEC secure website and should be completed by the candidates within 3 weeks of being opened by the centre. The assessment may be taken in time blocks determined by the centre taking into the account the submission to the examiner no later than 28 May.

#### Unit 2: Drawing Construction Plans

Controlled Assessment 50%

The assessment for 2021 will be streamlined so that candidates do not need to identify information requirements for:

- AC1.1 construction design

	<ul style="list-style-type: none"> <li>• AC2.2 drawing elevations</li> <li>• AC2.3 use language of drafting</li> </ul> <p>An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.</p> <p>External moderation is therefore available in January and Summer 2022.</p> <p>Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.</p>

<p><b>Unit 2: Producing Engineered Products</b></p> <p>Centre marked controlled assessment 50%</p>	<p>The content being assessed will be streamlined for 2022 with the number of processes required reduced from nine to six. Centres will need to modify working drawings to assist candidates in allowing for these changes.</p> <p>In addition, candidates will not be required to evaluate the quality of engineered products (AC4.2).</p> <p>An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.</p> <p>External moderation is therefore available in January and Summer 2022.</p> <p>Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.</p>

<b>Unit 3: Solving Engineering Problems</b>  External Examination 25%	There are no changes to the assessment of this unit.  An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment  This assessment is therefore available in January and Summer 2022.

## Level 1/2 Vocational Award in Event Operations

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a CAG/TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

<p><b>Unit 1: The Events Industry</b></p> <p>Written Exam 40%</p>	<p>There are no changes to assessment of this unit.</p> <p>An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.</p> <p>This assessment is therefore available in January and Summer 2022.</p>
<p><b>Unit 2: Event Operations</b></p> <p>Centre marked controlled assessment 30%</p>	<p>There are no changes to Tasks 2 and 3. Candidates must complete either Task 1 in this unit or Task 3 in unit 3.</p> <p>An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.</p> <p>External moderation is therefore available in January and Summer 2022.</p> <p>Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.</p>

<p>The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.</p> <p>As elements of event planning are assessed in Unit 2, Task 1 and Unit 3, Task 3, we have streamlined the assessment for 2022 by allowing candidates to complete one of these tasks. The planning task in Unit 2 is a group task which centres may find difficult to facilitate and therefore the planning task in Unit 3 may be more manageable for centres.</p> <p>Where candidates do not complete the Unit 2, Task 1, teachers will need to identify suitable events for candidates to participate in and assign roles to enable them to complete the remaining tasks. Centres have the flexibility to adapt the assessment brief for Unit 2 so that candidates can run smaller events, outside events or online events.</p> <p>Learners should have the opportunity to plan, run and evaluate a minimum of one event before engaging with the Unit 3 summative assessment. This is a reduction from three events as published in the specification; this adaptation will free up additional teaching and learning time to focus on other areas of content.</p>	

## Level 1/2 Vocational Award in Global Business Communication

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

## Level 1/2 Vocational Award in Hospitality and Catering

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a CAG/TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.

However, disruption and centre closures in 2020/21 means that candidates partway through their qualification may not have had access to specialist workspaces and equipment in centres to develop and refine their practical skills.

The adaptations made to Unit 2 to streamline the number of dishes being assessed should assist centres to mitigate disruption to teaching and learning by reducing the amount of time that candidates need to spend practising and refining their skills ahead of assessment.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

External moderation is therefore available in January and Summer 2022.

Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.

The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.

Streamlining the content being assessed in Unit 3 will assist in mitigating disruption to teaching and learning by enabling teachers to adapt their teaching and learning activities for these topics or adjusting the depth to which the topics are taught to free up additional teaching and learning time for other topic areas.

## Level 2 Health and Social Care: Principles and Contexts

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptations to assessment in 2021/2022

#### Work placement

The mandatory requirement for learners to experience a 5-day **work placement** is removed for 2021/22.

The removal of the requirement for learners to experience 5-day work placement will allow mitigate the risk that centres cannot secure access to suitable placements.

Centres are encouraged to provide **sector engagement** opportunities to learners where possible and to consider providing block work placements later in the academic year where it is safe and practicable to do so. These activities are of considerable value to learners and support progression to further learning however, we fully appreciate that the ability to support these opportunities to learners will depend on a number of factors including any on-going disruption caused by the Covid-19 pandemic and the willingness and ability of employers and organisations to host placements.

**Unit 1: Promoting health and well-being throughout the life stages**  
(5972UA/UB)  
External examination (40%)

We will provide advance information about the focus of the January and summer 2022 exam(s) in this unit.

- Advance Information for the January 22 examination will be issued in late November 2021.
- Advance Information for the summer examination will be issued in April 22.

This assessment is available in January and Summer 2022.

Candidates will be given two resit opportunities for this unit. This means that candidates have three opportunities in total.

This assessment is available in January and June 2022. Candidates who wish to resit again can resit in January or June 2023.

**Unit 2: Health and social care to support outcome-focused provision for person-centred care**  
(5972U2)  
Internal non-examination assessment (60%)

#### Assignment 1

There is no change to this assignment.

A choice of two case studies will be available to centres on the first Monday in March 2022.

#### Assignment 2

Candidates will **not** be required to complete Assignment 2: Work placement and sector engagement.

The Level 2 Health and Social Care: Principles and Contexts qualification is designed as a one-year qualification. There is no requirement for learners to have previously completed a health and social care qualification and therefore learners starting their qualification in September 2021 should not be disadvantaged by any disruption they may have experienced in 2020/21.

In response to the on-going disruption caused by the Covid-19 pandemic and recognising that the health and social care sector is likely to continue to be affected in 2021/22, we have adapted the assessment requirements for 2021/22.

## Level 2 Children’s Care, Play Learning and Development: Practice and Theory

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification. In response to the on-going disruption caused by the Covid-19 pandemic and recognising that the health and social care sector is likely to continue to be affected in 2021/22, we have worked with the Sector Bodies to agree adapted assessment requirements for 2021/22.

### Adaptations to assessment 2021/2022

Candidates who were due to complete the Unit 216 examination in Summer 2021 have been awarded a Centre Determined Grade for the unit, subject to centre entering them for the unit and sufficient evidence being available to allow the centre to determine a grade.

The following adaptations apply for candidates completing in the 2021/22 academic year

<b>Work Placement</b>	<p>The minimum work placement hours have been reduced to 196 hours (70% of the mandatory hours specified in the qualification specification).</p> <p>Arrangements for learners who started their qualification in 2020/21 and are waiting to complete can be found on the <a href="http://healthcarelearning.wales">healthcarelearning.wales</a> website.</p>

<b>Practice units</b>	<p>In circumstances where public health Covid-19 restrictions impede assessor access to the workplace, direct observation by a qualified assessor can be replaced by triangulation of Expert Witness Testimony, Professional Discussion and Learner reflection.</p>

The Level 2 Children’s Care, Play, Learning and Development: Practice and Theory qualification is designed as a one-year qualification. There is no requirement for learners to have previously completed a related qualification and therefore learners starting their qualification in September 2021 should not be disadvantaged by any disruption they may have experienced in 2020/21.

## National/Foundation Skills Challenge Certificate

<b>Adaptations to assessment in 2021/2022</b>		
Candidates completing their National/Foundation Skills Challenge Certificate qualification in Summer 2022 must complete the Individual Project plus any two Challenges.		
<b>Enterprise and Employability Challenge</b>	Task 1	The requirement for direct supervision will be removed and the limit of 1 page of A4 will remain in place.
	Task 2	The requirement for direct supervision will be reduced from 17 to 5 hours.
	Task 3	The requirement for learners to present their pitch will be removed but candidates will still be required to prepare evidence for a pitch.
	Task 4	The requirement for direct supervision will be removed and the limit of 1 page of A4 or a 5-minute oral recording will remain in place.
<b>Global Citizenship Challenge</b>	Task 1	The requirement for direct supervision will be reduced from 5 to 3 hours.
	Task 2	The requirement for direct supervision will be removed; candidates will be required to complete this task as an individual.
	Task 3	The requirement for direct supervision will be removed and the limit of 1 page of A4 or a 5-minute oral recording will remain in place.
<b>Community Challenge</b>	Task 1	The requirement for direct supervision will be removed and the limit of 1 page of A4 will remain in place.

### Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

The removal of the requirement for candidates to run the tourism event as part of the Unit 1 assessment will remove the need for candidates to attend tourism venues and gather in groups, should disruption continue into the academic year. This adaptation has no impact on the marks allocated for the assessment and will not prevent candidates from accessing the higher mark bands.

For the avoidance of doubt, this means that candidates who are progressing from a Certificate to a Diploma qualification in 2021/22 (mid-flight learners) will need unit TAGs for the Certificate units or will need to sit the Certificate unit assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

## Level 3 Certificate in Health and Social Care: Principles and Contexts

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptions to assessment in 2021/2022

<p><b>Unit 1: Principles of care and safe practice within outcome focused person-centred care (4973U1)</b> Internal non-examination assessment (25%)</p>	<p>There are no changes to the assessment of this unit.</p>
<p><b>Unit 2: Factors affecting individuals' growth and development across the lifespan and how this impacts on outcomes, care and support needs (4973UA/UB)</b> External assessment (50%)</p>	<p>We will provide advance information about the focus of the January and summer 2022 exam(s) in this unit.</p> <ul style="list-style-type: none"> <li>• Advance Information for the January 22 examination will be issued in late November 2021.</li> <li>• Advance Information for the summer examination will be issued in April 22.</li> </ul> <p>Candidates will be given two resit opportunities for this unit. This means that candidates have three opportunities in total.</p> <p>This assessment is available in January and June 2022. Candidates who wish to resit again can resit in January or June 2023.</p>
<p><b>Unit 3: Promoting the rights of individuals in across the lifespan (4973U3)</b> Internal non-examination assessment (25%)</p>	<p>There are no changes to the assessment of this unit.</p>
<p>The Level 3 Certificate in Health and Social Care: Principles and Contexts qualification is designed to be delivered as a one-year stand-alone qualification or the first year of the Diploma qualification. There is no requirement for learners to have previously completed a health and social care qualification and therefore learners starting their qualification in September 2021 should not be disadvantaged by any disruption they may have experienced in 2020/21.</p>	

## Level 3 Diploma in Health and Social Care: Principles and Contexts

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification.

### Adaptions to assessment in 2021/2022

#### Work placement

The mandatory requirement for learners to experience 60 hours of work placement has been removed for assessment in 2022.

Centres are still required to ensure that learners experience some sector engagement requirement during the course and should consider providing block work placements later in the academic year where it is safe and practicable to do so. These activities are of considerable value to learners and support progression to further learning; however, we fully appreciate that the ability to support these opportunities for learners will depend on a number of factors including any ongoing disruption caused by the Covid-19 pandemic and the willingness and ability of employers and organisations to host placements.

#### Unit 1: Principles of care and safe practice within outcome focused person-centred care (4973U1)

Internal non-examination assessment (12.5%)

Candidates who were entered for the Certificate qualification in Summer 2021 are **not** required to complete the Unit 1 assessment in 2021/22.

#### Unit 2: Factors affecting individuals' growth and development across the lifespan and how this impacts on outcomes, care and support needs (4973UA/UB)

External assessment (25%)

Candidates who were entered for the Certificate qualification in Summer 2021 are **not** required to complete the Unit 2 assessment in 2021/22.

#### Unit 3: Promoting the rights of individuals in across the lifespan (4973U3)

Internal non-examination assessment (12.5%)

Candidates who were entered for the Certificate qualification in Summer 2021 are **not** required to complete the Unit 3 assessment in 2021/22.

#### Unit 4: Understanding how the human body is affected by common conditions (4973U4)

There is no change to this assessment. A choice of two stimuli will be available to centres on the first Monday in March 2022.

<p>Internal non-examination assessment (12.5%)</p>	
<p><b>Unit 5: Supporting individuals at risk to achieve their desired outcomes (4973UC/UD)</b>  <b>External assessment (25%)</b></p>	<p>We will provide advance information about the focus of the January and summer 2022 exam(s) in this unit.</p> <ul style="list-style-type: none"> <li>• Advance Information for the January 22 examination will be issued in late November 2021.</li> <li>• Advance Information for the summer examination will be issued in April 22.</li> </ul> <p>Candidates will be given two resit opportunities for this unit. This means that candidates have three opportunities in total.</p> <p>This assessment is available in January and June 2022. Candidates who wish to resit again can resit in January or June 2023.</p>
<p><b>Unit 6: Working in the health and social care sector (4973U6)</b>          Internal non-examination assessment (12.5%)</p>	<p>As this assessment directly relates to the candidates' work placement and sector engagement which has been removed as a mandatory requirement for 2021/22, candidates completing the Diploma qualification in 2021/22 will not need to complete Unit 6.</p> <p>Centres must still teach the content in Unit 6 to support progression to further and higher education, and to provide candidates with an understanding of working in the sector.</p>
<p>The Level 3 Diploma in Health and Social Care: Principles and Contexts is designed as a two-year qualification with candidates completing Units 1-3 in the first year and Units 4-6 in the second year. In line with decisions taken regarding the award of GCE A Levels in Summer 2022, candidates who were entered for the Certificate qualification in Summer 2021 and are progressing to the Diploma in 2021/22 will have the Diploma awarded on the outcomes of Unit 4-5 only in line with the arrangements outlined in the above table.</p> <p>Considering the on-going disruption caused by the Covid-19 pandemic and recognising that the health and social care sector is likely to continue to be affected in 2021/22, further adaptations have been made to the assessment requirements for 2021/22.</p> <p>For further information regarding this qualification, please visit the <a href="https://healthcarelearning.wales">healthcarelearning.wales</a> website</p>	

## Level 3 Children’s Care, Play, Learning and Development: Practice and Theory

There are no changes to the taught content for this qualification and centres are expected to teach all content required by the Specification. In response to the on-going disruption caused by the Covid-19 pandemic and recognising that the health and social care sector is likely to continue to be affected in 2021/22, we have worked with the Sector Bodies to agree adapted assessment requirements for 2021/22.

### Adaptions to assessment in 2021/2022

#### Work placement

The mandatory work placement hours have been reduced from 720 to 504.

This reduction in work placement hours does not override the assessment requirements for the qualification. Successful completion of the assessment tasks will still be required for certification. **Learners who complete 504 hours of work placement but have not successfully completed the practice assessments and have therefore not demonstrated occupational competence will not be certificated for the qualification.**

Centres should seek to secure work placements for learners that go beyond the minimum 504 hours and, where possible, deliver the full 720-hours.

504 hours equates to approximately 63 days of placement required during the 2021/22 academic year which could be achieved through:

- a 3-day per week placement across the academic year, or
- a block four-week placement per term.

#### Unit 330: Principles and theories that influence children's care, play, learning and development in the 21st century in Wales

(External Examination)

We will provide advance information about the focus of the January and summer 2022 exam(s) in this unit.

- Advance Information for the January 22 examination will be issued in late November 2021.
- Advance Information for the summer examination will be issued in April 22.

Learners will be given two resit opportunities.

#### Unit 331 Investigating current issues in children's care, play, learning and development in Wales

(External Extended Investigation)

Topics for the extended investigation will be published in February 2022.

This will provide additional flexibility to centres to schedule the supervised aspects of the assessment.

## Advanced Skills Challenge Certificate

Adaptations to assessment in 2021/2022		
Candidates completing their Advanced Skills Challenge Certificate qualification in Summer 2022 must complete the Individual Project plus any two Challenges.		
<b>Enterprise and Employability Challenge</b>	Task 1	The requirement for direct supervision will be removed; there is already a limit of 1 page of A4.
	Task 2	The time allocated to this task will be reduced to 20 hours over 5 weeks. Centres can refer to the Principal Moderators report (January 2021) to ensure that the time allowed for this Challenge is used effectively by candidates.
	Task 3	There will be no changes to this task.
	Task 4	The requirement for teachers to observe the presentation will be removed however candidates will still be required to prepare evidence for it.
<b>Global Citizenship Challenge</b>	Task 1	The requirement for direct supervision will be removed; there is already a limit of 1,000 words.
	Task 2	There will be no changes to this task.
	Task 3	The requirement for direct supervision will be removed and the limit of 500 words will remain in place.
<b>Community Challenge</b>	Task 1	The requirement for direct supervision will be removed and the limit of 2,000 words will remain in place.
	Task 2	There will be no changes to this task.
	Task 3	The requirement for teachers to observe the presentation will be removed however candidates will still be required to prepare evidence for it.
In summer 2022, the Advanced Skills Challenge Certificate will be awarded based on a candidate's performance in the three Components sat. The Individual Project will contribute 50% to the overall grade and the two Challenges selected will contribute 25% each.		

## Appendix A

### Level 3 Applied General Weightings in 2022

In this section we have provided the raw mark totals and weightings for each unit in every qualification where there has been an adaptation. In most cases, the raw mark totals and weightings for each unit in every qualification are the same as in a normal year.

There are, however, some qualifications where, due to the nature of the adaptations (assessments have been altered to have fewer questions), this has led to a reduction in total marks for individual units/qualifications and/or a change in the weightings of the units within the qualification. Where the raw mark for a unit changes, the total UMS for that unit remains unchanged.

The table below provides information for any Level 3 Applied General qualifications where there are any changes to a normal year, these are highlighted in red.

Title	Code	Total Mark	UMS Total	Weighting (%)
<b>Medical Science Certificate</b>	<b>4463QC</b>		<b>480</b>	<b>100</b>

## Entry Level Certificate Qualification Weightings in 2022

There are some qualifications where, due to the nature of the adaptations:

- assessments have been altered to have fewer questions
- assessments have been removed altogether

and this has led to a reduction in total marks for individual assessments/qualifications and/or a change in the weightings of the assessments within the qualification. This does not include qualifications which are subject only to Advance Information without adaptations. In this case there will be no change in the total marks or the weightings.

Below are the Raw Mark Totals, the Assessment Aggregation Factor and Assessment Weightings for each component in each Entry Level qualification where there is an adaptation which has affected the total marks or weighting for 2022 only.

Where a whole assessment has been removed from a qualification, the remaining assessments will retain their existing aggregating factors. This means the remaining assessments will change weighting, but their value comparatively will remain the same as before.

For qualifications where the total mark is lower than usual, the aggregation factor for the affected assessment has been adjusted so that the assessment carries the same weight as in previous exam series.

Carry forward of NEA marks to a future series is still possible even where the raw marks are different in 2022 to a normal series.

The tables below provide information for all qualifications and where there are changes to a normal year, these are highlighted in red.

Title	Code	Total Mark	AAF	Weighting (%)
<b>English</b>	<b>6700QC</b>			<b>100</b>

## Health and Social Care Weightings in 2022

In this section we have provided the raw mark totals and weightings for each unit in every qualification where there has been an adaptation. There are some qualifications where, due to the nature of the adaptations:

- assessments have been altered to have fewer questions
- units have been removed altogether

and this has led to a reduction in total marks for individual units/qualifications and/or a change in the weightings of the units within the qualification.

In qualifications where a whole unit has been removed, the maximum UMS for each remaining unit is unchanged\*. This is to accommodate unit entries in 2022 for a cash-in in 2023. This is therefore reflected in the bigger contribution that each remaining unit makes to the qualification.

Where the raw mark for a unit changes, the total UMS for that unit remains unchanged.

The tables below provide information for the Health and Social Care qualifications and where there are changes to a normal year, these are highlighted in red. We have also provided a rationale for the changes we have made.

Title	Code	Total Mark	UMS Total	Weighting (%)
<b>Level 2 Health and Social Care: Principles and Contexts</b>	<b>5972Q0</b>		<b>250</b>	<b>100</b>

\*The UMS has changed for Unit 4 within Level 3 Diploma in Health and Social Care: Principles and Contexts qualification in order to keep the weighting of externally assessed and internally assessed assessments equal.

### Skills Challenge Certificate Weightings in 2022

In summer 2022, the Skills Challenge Certificates will be awarded based on a candidate's performance in the three components completed. The Individual Project will contribute 50% to the overall grade and the two Challenges selected will contribute 25% each. Raw marks for components will remain unchanged.

To facilitate the different weighting of the Challenges, two unit UMS calculations are required from the raw mark grade boundaries. The first calculation uses the same maximum UMS as in previous series and will be used for awarding the Skills Challenge Certificates in the summer series from 2023 onwards. The second calculation converts all challenges to a maximum UMS of 75, as part of the adaptation for summer 2022. The Individual Project UMS total remains unchanged.

The adaptation introduces different routes or pathways to achieve the qualifications, these will be entered against different Cash-in codes.

The tables below provide information for the Skills Challenge Certificate qualifications and where there are changes to a normal year, these are highlighted in red.
