

GCE A LEVEL

1410U50-1C

CHEMISTRY – A2 unit 5

Practical Examination

MAIN THEMES OR TOPIC AREAS FOR ASSESSMENT IN UNIT 5 IN SUMMER 2026

(To be copied and given to candidates)

Knowledge, understanding and skills related to the following themes or topic areas will be assessed in the **Experimental Task**:

- chemical kinetics
- inorganic analysis
- feasibility of redox reactions

Knowledge, understanding and skills related to the following themes or topic areas will be assessed in the **Practical Methods and Analysis Task**:

- quantitative analysis involving gases
- acid-base titrations
- inorganic analysis
- organic analysis
