

## GCSE Food and Nutrition

We hope you have had a lovely Christmas and New Year. Welcome back to the new term.

With a full term of teaching the new Food and Nutrition specification to your Year 10 learners behind you, we hope you have enjoyed teaching the new specification and haven't found it too different from the Legacy specification. Please remember there are a wealth of new resources available for the new specification which can be found [HERE](#). These resources can also be used with your Year 11 learners, who will be the last cohort following the legacy specification.

- Summer 2026. The summer examination timetable is confirmed and is available on the open website [HERE](#)
- There are new 2025 exemplars for all units on the secure [website/Portal](#).
- NEA assessments. NEA briefs for Unit 2 and Unit 3 will be released on WJEC [Portal](#) on May 1<sup>st</sup> for Year 10 learners, for submission in May 2027.
- NEA documents. The NEA Handbook, which contains information for both candidates and teachers on Units 2 & 3 of the new specification, will be available from the open website under the Non-Exam Assessment (NEA) tab. NEA coversheets for the new units will also be located here.
- Electronic upload of internal assessment evidence for moderation - please can centres upload the unit evidence as a single PDF document for ease of upload and moderation. Remember, the deadline date is May 5th. [IAMIS](#) will be open from March for centres to input marks.
- Want to learn the new specification, get some free CPD and get paid at the same time? Then why not become an Examiner or Moderator. We are always keen to add to our team of Examiner and Moderators – apply [HERE](#)

Get in touch - we are here to help and support. Have a good term and we look forward to hearing from you all soon.

If you have any queries – big or small – then get in touch. We are here to help and support. Have a great term!
