

Mixed tier entry

Centres can enter candidates for any combination of GCSE foundation and higher tier units and permission does not need to be requested prior to entry.

Each unit will be worth 100 UMS and the maximum available on the foundation will be 69:

Max	A*	A	B	C	D	E	F	G
400	360	320	280	240	200	160	120	80

Therefore the maximum grades and combinations are as follows:

1 foundation and 3 higher = $69+100+100+100=369=A^*$

2 foundation & 2 higher = $69+69+100+100=338=A$

3 foundation & 1 higher = $69+69+69+100=307=B$

4 foundation = $69+69+69+69=276=C$
