Made for Wales.
Ready for the world.

Empowering learners, supporting teachers

As Wales' largest awarding body, we have over 75 years of experience in delivering trusted, high-quality qualifications that support learners, educators, and employers across Wales.

We provide a wide range of bilingual qualifications that are accessible, engaging, and designed to meet the needs of today's learners.

Our qualifications are backed by expert subject teams, high quality resources, and responsive, specialist support. Our work is guided and shaped through close collaboration with schools, colleges, regional consortia, sector experts and Qualifications Wales.

As the only awarding body offering qualifications in every suite of the 14-16 National Qualifications offer, we are proud to play a key role in supporting the Welsh Government's ambition to make education in Wales a source of national pride, and we remain committed to helping every learner achieve their potential and progress with confidence.

General Foundation Qualifications: A strong foundation for future success

Our General Foundation Qualifications are designed to inspire and support learners, offering a two-year programme that is accessible and engaging.

These qualifications help learners build confidence, develop essential knowledge, understanding and skills, and enjoy meaningful success.

A key feature of our General Foundation Qualifications is their unitised structure, allowing learners to complete some assessments in Year 10 and others in Year 11. This flexible approach supports steady progression, reduces assessment pressure, and gives learners the opportunity to demonstrate achievement throughout the course.

The compensatory nature of our General Foundation Qualifications recognises learners' strengths across different units. Rather than requiring uniform performance in every area, this approach allows high achievement in one unit to offset lower performance in another, promoting an inclusive and supportive assessment experience.

Our General Foundation Qualifications build on the conceptual understanding learners have developed through their Curriculum for Wales learning from ages 3-14, and relate to and support the four purposes and the principles of progression. Although very distinct from GCSEs, we have designed them to provide a broad basis for progression onto our related GCSEs by focussing on similar skills and understanding.

Whether learners continue in the subject or not, they will gain valuable knowledge, understanding and skills, and a sense of accomplishment that prepares them for life, learning, and work.

About Entry Level / Level 1 Foundation Qualification in The Sciences

This qualification supports learners in developing essential scientific knowledge, practical enquiry skills and confidence in applying science to real-life situations.

It provides a strong foundation for future learning and everyday decision-making, helping learners understand how science impacts their lives and the world around them.

Aligned with the Curriculum for Wales, this qualification fosters curiosity. It encourages adaptability, problem-solving and informed decision-making, preparing learners for progression to further study, training or employment.

Who is this qualification for?

This qualification is for learners between 14-16 who are working at Entry Level/Level 1 in this subject.

It will build on the conceptual understanding learners have developed through their Curriculum for Wales learning from ages 3-14. It also relates to and supports the four purposes and the principles of progression.

The qualification will provide a broad basis for progression onto GCSE Integrated Science (Single Award) and GCSE The Sciences (Double Award).

What does the qualification cover?

Unit	Focus:
1. Science in Everyday Life	<p>This unit introduces learners to basic scientific ideas through familiar daily experiences, including:</p> <ul style="list-style-type: none">• Using appliances and where energy comes from• Common materials and their uses• Changes in materials
2. Caring for the Planet	<p>This unit explores environmental issues and how learners can make a difference, including:</p> <ul style="list-style-type: none">• What waste is and how to reduce it (recycling, composting)• Saving energy and water• Pollution (air, water, noise – simple concepts)• Plants and animals in the local environment.

What does the qualification cover?

Unit	Focus:
3. Me and My Health	<p>This unit explores how the body works and how lifestyle choices affect health, including:</p> <ul style="list-style-type: none">• The human body (basic parts and senses)• Exercise and staying active• Healthy eating and balanced diets• The importance of hygiene• Recognising body changes and basic health needs• Making simple comparisons (e.g. heart rate before/after exercise)• Understanding cause and effect (e.g. germs and hand washing).

Summary of Assessment

Unit	Focus
1	<p>Topic tests - centres can choose paper or on-screen versions (marked by WJEC) within a four-week window.</p> <p>1 hour (2 x 30 mins) 60 Marks - 30% of Qualification</p> <p>The unit will be available at two tiers:</p> <ul style="list-style-type: none">• Higher Tier: Entry 3 - Level 1• Foundation Tier: Entry 1 - Entry 3
2	<p>Portfolio of mini scientific enquiries (marked by the centre, moderated by WJEC)</p> <p>Flexible Duration - 4 x 15 Marks - 40% of Qualification</p>
3	<p>Scientific enquiry including a practical element (marked by the centre, moderated by WJEC)</p> <p>Flexible Duration - 50 Marks - 30% of Qualification</p>

“Our General Foundation Qualifications are designed to inspire confidence and celebrate progress.

Through flexible, inclusive assessment and meaningful learning, they empower every learner to achieve success and develop a strong foundation for future learning, life and work.

Our teams are here to support you as you get ready to deliver these exciting new qualifications, providing personalised guidance and assistance to help you teach with confidence.”

Delyth Jones

Regional Support
Team Leader

Need more support?

Our Regional Representative **Sophie Dobbs** is available to support your centre to deliver these exciting new qualifications:

“ I work closely with schools and colleges across Wales, helping them understand the new Wave 3 qualifications that are coming as part of National 14-16 Qualifications reform in September 2027.

I'm here to support centres at every stage of the journey — from early conversations and planning, right through to delivery.

Before starting at WJEC I spent 17 years in secondary education. Having that experience, and a clear understanding of the practical challenges senior leaders face around staffing, timetabling, resources and budgets, means I'm well placed to support centres strategically and practically through the Wave 3 transition.”
