

- (d) Explain whether or not your graph is in good agreement with the equation:

$$T = 2\pi \sqrt{\frac{H-d}{g}}$$

[3]

.....

.....

.....

.....

.....

.....

- (e) (i) Calculate the maximum and minimum gradients for your graph.

[3]

.....

.....

.....

.....

.....

- (ii) Hence determine the mean gradient and its **percentage** uncertainty.
