Dear Steve,

I am writing with regard to the WJEC Level 1 / 2 Vocational Award in Engineering (600/8645/2) course you offer to centres in England and Wales.

Considering the state of the economy and the shortage of engineers, it is essential that we continue to promote and support all fields of Engineering particularly at key stage 4 within the school curriculum to achieve required growth and development. The vocational course you offer is ideal for candidates to be able to have a taster of the world of Engineering and to hopefully be a starting point to consider Engineering as a possible career path.

If I can be of further assistance please do not hesitate to contact me.

Kind regards,

Associate Lecturer in Engineering
