

UNIT 2 – Textiles and Fashion Practical Tasks

Task 1 (20%)

Candidates will complete one investigative task chosen from the following bank of tasks. The time allocation for this task is 10 hours.

1. Colour can be used to create an original item. Explore methods of adding colour to make items both exciting and interesting.
2. Recycling is an exciting interesting way of updating/making fabric items. Explore a range of possibilities of making “new” from “old”.
3. Imaginative use of fabrics and/or thread can be used to individualise an item. Explore a range of techniques using fabrics and/or threads.
