25th August 2017

Dear Mike

I am writing this letter in support of your two proposed courses at Level 3. - WJEC Applied Certificate in Tourism (603/0825/4) and WJEC Applied Diploma in Tourism (603/0826/6)

I believe that these qualifications appropriately assess the skills, knowledge and understanding of tourism at Level 3 and are an excellent replacement for the previously successful Advanced Level Applied Travel & Tourism qualification offered by WJEC.

The subject content is clearly designed to give a clear understanding of the organisation and operations of the tourism industry and provide opportunities for our candidates to develop specific skills and knowledge required to further their studies in this area in both Further or Higher education, or indeed employment in tourism or related industries.

These qualifications would be accepted alongside other qualifications at Level 3 offered in our centre, St. Genevieve's High School, such as ICT, Business Studies, Physical Education.

I have been keen to offer this course from the moment I studied the specification believing it to be a both enjoyable and challenging qualification, that would both interest and motivate our pupils to continue their studies in an industry experiencing great growth throughout the British Isles and Ireland. I, needless to say, fully support the development of this qualification.

Yours sincerely

Aidan McAleese
Head of Business & Tourism
