BRIEF

The world faces many global challenges that require global solutions. The Global Citizenship Challenge provides you with an opportunity to acquire knowledge and understanding of a complex global issue and develop an insight into the challenges faced across the world in addressing the issue. You will develop and support particular arguments, viewpoints or perspectives on the global issue to construct your own personal standpoint.

Access to **Health Care** is a basic human right. The right to Health Care is part of numerous international agreements such as the United Nations 'Universal Declaration of Human Rights'. Globally the standard and access to health care varies.

This Challenge provides you with an opportunity to acquire knowledge and understanding of global **Health Care** and develop an insight into the challenges faced across the world in addressing this issue. You will develop and support particular arguments, viewpoints or perspectives on the global issue to construct your own **Personal Standpoint**.

If feasible solutions are to be uncovered it is vital to share your ideas of ways to take action through engagement with others. The Challenge provides an opportunity for you to promote your personal approach for solutions and strategies to tackle the global issue at a **Global Choice Conference**. You should communicate your message in a creative and innovative manner to engage and encourage the audience to think and act as global citizens.

The focus of the Global Choices Conference you will contribute to is:

'Access to Health Care is a basic human right. What approach should be taken to address the challenges of achieving this?'

You should communicate your message in a creative and innovative manner to engage and encourage the audience to think and act as global citizens.

The skills that you develop in the Global Citizenship Challenge will give you the ability and confidence to be an active global citizen, ready to make a positive difference in the world.
