**Available for assessment from September 2015**

## Product for garden centre

### PURPOSE

The purpose of the Enterprise and Employability Challenge is to develop learners' skills, whilst providing opportunities for learners to develop enterprising skills and attributes and enhance employability. During the Enterprise and Employability Challenge learners will explicitly develop skills in **Numeracy, Digital Literacy, Creativity and Innovation** and **Personal Effectiveness** and apply them in an appropriate manner.

### BRIEF

The Enterprise and Employability Challenge provides you with an opportunity to develop important team working skills by creating and implement innovative ideas based on meeting the needs of customers by developing a product linked to your Learning Programme. This can be achieved and enhanced by following an enterprise process which includes interacting with successful local entrepreneurs.

A local garden centre is looking to expand their business. As a team of 3 to 6 members, using skills, knowledge and understanding developed through your trade; work with others to develop an idea for a product that would be suitable for sale at the garden centre.

Using one of the following examples your team must develop a business proposal to present to the garden centre.

Bird table, wooden planters, picnic table – Carpentry  
Water feature – Plumbing  
Decorative ornaments, house plaques – Plasterers,  
Painting and Decorating  
Brick barbeque - Bricklaying

The final proposals must be illustrated in a visual display which should be as creative and imaginative as possible. The team will then pitch the proposal to a panel.

The Enterprise and Employability Challenge provides you with an opportunity for you to show how creative and innovative you can be including the use of digital technology, as well as demonstrating people skills such as developing a rapport, listening skills, negotiating skills and trusting others. You may also demonstrate your assertiveness and leadership qualities.
