<b>Qualifications available</b>	<b>Cash-in Code</b>

## **Introduction**

This guidance is to support centres as they prepare for the delivery and assessment of Entry 2 and/or Entry 3 qualifications in Healthy Living and Fitness on the Qualifications and Credit Framework.

Units are available at Entry 2, 3 and Level 1 as appropriate. Although some units are available at Level 1, there is no overall qualification at this level at the moment. Please see WJECs website for any updates on future developments which might include a qualification at Level 1.

The suggestions for each unit illustrate how each assessment criteria could be covered either individually or collectively.

Suggestions also cover how units can combine to produce a coherent course for learners.

For further details on administration please read the WJEC Entry Pathways specification.

Unit Code	Unit title	Entry 2	Entry 3	Level 1	Credit Value

6436/E2 6436/E3	Frequent and Regular Physical Activity for Health, Fitness and Well-Being	Y	Y	N	3

### Possible Qualifications

For both Entry 2 and Entry 3, candidates may gain an **award** through achieving 8 – 12 credits or a **certificate** through achieving 13 – 18 credits.

By selecting the appropriate units from those above, centres would be able to deliver a WJEC Entry Physical Education course within the Healthy Living and Fitness qualification.

For example by delivering *Creative Activities (Dance)*, *Individual or Partner Activities*, *Team Competitive Activities* and *Frequent and Regular Physical Activity*, centres would enable their learners to achieve a total of 14 credits i.e. an **Entry Level Certificate**.

However, centres would obviously be free to choose any other units if they felt that these better meet the needs of their learners.

It can be seen therefore that the variety of units gives choice and flexibility to centres so that the individual requirements of candidates can be satisfied.

### External moderation of practical units

As a consequence of their practical nature, moderation procedures for the above units differ from those for the other units in the specification.

For the practical units, WJEC appoints moderators who will visit the centre to see a sample of the practical activities offered. It is envisaged that the majority of moderation visits will take place in the spring preceding the summer entries. **Please note** that if a small number of candidates are entered, it is highly likely that other sources of evidence such as the videoing of candidates would be required and that the centre would not receive a moderator visit. Video evidence must be available for all off-site activities that could not be seen during the moderation visit.

For further detail on the moderation procedures for these and the other units, please see the individual unit guidance.

## 2. Amplification of Content

The following suggestions should be considered in the context of:

- the level the learner is working at;
- providing opportunities for progression;
- Centre facilities and resources.

### **LO1**

Candidates will need to learn how to identify risks that might be present in the particular activity. For Entry 3, carrying out a simple risk assessment would help prepare the candidates.

### **LO2/3**

The candidates will carry out the activity in an appropriate environment. The more challenging the environment, the greater the opportunities will be to access the Entry 3 criteria.

### 3. Delivery

#### 3.1 Planning Courses

Achievement of each unit is confirmed through a 'statement of achievement', so that learners will gain some recognition for all completed work. However, in planning courses teachers will need to consider the possible qualification outcomes for individual learners. **For full details of the qualifications (Awards and Certificates) that this unit may contribute to, and rules of combination, please refer to the WJEC Entry Pathways specification.**

This unit may be delivered along with the following units:

- Preparing for Sporting Activities (Entry 2)
- Gymnastic Activities(Entry 2/3)
- Individual or Partner Activities (Entry 2/3)
- Frequent and Regular physical Activity for Health, Fitness and Well-Being (Entry 2/3)
- Team Competitive activities (Entry 2/3)
- Creative Activities (Entry 2/3)

#### 3.2 Resources

There are no particular books that cover this unit. Learners can find information using textbooks, websites, CD ROMs, magazines and newspapers.

Learners should have access to a range of suitable equipment/apparatus.

## 4. Assessment

### 4.1 Ways of demonstrating that the criteria have been met

In planning assessment opportunities it will be necessary to consider:

- Formative as well as summative assessment
- Coverage of Assessment Criteria for this unit
- Coverage of Assessment Criteria for linked units

In practice, ways of demonstrating that the criteria have been met will depend upon the way in which this unit has been integrated with other units in the delivery of the course as a whole. However, the following types of evidence are likely to feature:

- Teacher testimony matched to assessment criteria
- Witness testimony matched to assessment criteria from appropriate adults who have worked with the learner
- Video evidence
- Photographic evidence

It is envisaged that in the majority of cases, a declaration by the teacher will be the main way of demonstrating that the criteria has been met. However, centres might chose to use other sources of evidence as suggested above.

There will be ongoing assessment of evidence during the practical sessions undertaken by the candidates.

### 4.2 Acceptable Activities for Assessment

The following is a list of activities that might be acceptable for assessment in this unit. An activity named below could be assessed in a different unit, for example, Cycling and Skiing could be offered for assessment in the unit *Individual or Partner Activities*. An activity can only be offered for assessment in one unit. The following is not intended to be a definitive list but an indication of the type of activities that could be acceptable for assessment.

<b>Adventurous Activities</b>
Skiing
Mountain Walking
Climbing
Canoeing/Kayaking
Cycling/Mountain Biking
Swimming which includes survival techniques
Sailing

## **5. Recording, Moderation and Administration**

### **5.1 Recording**

Assessment will be recorded on the attached form by indicating successful completion of each Assessment Criterion. All criteria must be met for the unit to be achieved and credit awarded. Where a unit is provided at Entry 2 and Entry 3, Learning Outcomes may be common but Assessment Criteria will be differentiated and must be met at the relevant level.

### **5.2 Internal assessment and External Moderation**

#### **Internal Assessment**

The teacher must assume responsibility for the assessment of practical activities. If a candidate offers an activity that is not usually offered as part of the Physical Education course, but is followed at a club in the evening for instance, the decision obviously rests with the teacher whether to allow a candidate to offer such an activity. If it is considered to be acceptable it is essential that the teacher liaises with the coach and is able to involve himself/herself in the assessment of the candidate's performance according to the assessment criteria.

#### **External Moderation**

WJEC appoints moderators whose task it is to monitor the standard of work in each of the centres involved. In order to carry out this essential process a moderator will visit the centre to see a representative sample of the practical activities offered.

Prior to the visit by the moderator, the teacher will have completed the attached Centre Assessment Record. These completed records will be handed to the moderator on his/her arrival at the school. It should be noted that where schools have up to 25 candidates moderation may take between 2½ - 3 hours. Schools with candidates in excess of this number should allow a whole day.

The timing of the visit will depend on the series for which the candidates are entered. However, it is envisaged that the majority will take place in the spring preceding the summer entries. Please note that if a small number of candidates are entered, it is highly likely that other evidence such as video evidence would be required and that the centre would not receive a moderator visit at this time.

### **5.3 Administrative Arrangements**

For further details of administrative arrangements, please refer to the WJEC Entry Pathways specification, which includes information about:

- Entry Procedures
- Internal Assessment and External Moderation
- Awarding and Reporting
- Issue of Results
- Access Arrangements
- Post-Results Services

## 2. Amplification of Content

The following suggestions should be considered in the context of:

- the level the learner is working at;
- providing opportunities for progression;
- centre facilities and resources.

### LO1

Candidates should have the opportunities to work as an individual, as a partner and as part of a group. They should be familiar with basic compositional and choreographical ideas and creation activities (dance).

### LO2

Candidates should be given every opportunity to develop and demonstrate the qualities of body awareness, clarity of shape, changes of speed and flow in their dance composition.

### LO3

Candidates will be able to describe the actions they and others perform. They will be able to identify some of the basic technical points which will help them perform these activities more competently.

Entry 2 candidates should be able to recognise their strengths and make suggestions about how they could improve their performance.

Entry 3 candidates should be able to make suggestions about how they could improve their performance and the performance of others.

Sufficient time should be given for students to practice their skills in order that they can identify any improvements made.

For both Entry 2 and 3, many aspects of reviewing performance will be apparent during their participation in the activity.

- Creative Activities (Entry 2/3)

### **3.2 Resources**

There are no particular books that cover this unit. Learners can find information using textbooks, websites, CD ROMs, magazines and newspapers.

Learners should have access to a range of suitable equipment/apparatus.

## **4. Assessment**

### **4.1 Ways of demonstrating that the criteria have been met**

In planning assessment opportunities it will be necessary to consider:

- Formative as well as summative assessment
- Coverage of Assessment Criteria for this unit
- Coverage of Assessment Criteria for linked units

In practice, ways of demonstrating that the criteria have been met will depend upon the way in which this unit has been integrated with other units in the delivery of the course as a whole. However, the following types of evidence are likely to feature:

- Teacher testimony matched to assessment criteria
- Witness testimony matched to assessment criteria from appropriate adults who have worked with the learner
- Video evidence
- Photographic evidence

It is envisaged that in the majority of cases, a declaration by the teacher will be the main way of demonstrating that the criteria has been met. However, centres might chose to use other sources of evidence as suggested above.

There will be ongoing assessment of evidence during the practical sessions undertaken by the candidates.

### **4.2 Acceptable Activities for Assessment**

This unit could be taught in conjunction with any other unit. Candidates should demonstrate that they are able to follow safe practices when participating in sporting activities and are able to perform exercises appropriate as a warm up/cool down.

## **5. Recording, Moderation and Administration**

### **5.1 Recording**

Assessment will be recorded on the attached form by indicating successful completion of each Assessment Criterion. All criteria must be met for the unit to be achieved and credit awarded. Where a unit is provided at Entry 2 and Entry 3, Learning Outcomes may be common but Assessment Criteria will be differentiated and must be met at the relevant level.

### **5.2 Internal assessment and External Moderation**

#### **Internal Assessment**

The teacher must assume responsibility for the assessment of practical activities. If a candidate offers an activity that is not usually offered as part of the Physical Education course, but is followed at a club in the evening for instance, the decision obviously rests with the teacher whether to allow a candidate to offer such an activity. If it is considered to be acceptable it is essential that the teacher liaises with the coach and is able to involve himself/herself in the assessment of the candidate's performance according to the assessment criteria.

#### **External Moderation**

WJEC appoints moderators whose task it is to monitor the standard of work in each of the centres involved. In order to carry out this essential process a moderator will visit the centre to see a representative sample of the practical activities offered.

Prior to the visit by the moderator, the teacher will have completed the attached Centre Assessment Record. These completed records will be handed to the moderator on his/her arrival at the school. It should be noted that where schools have up to 25 candidates moderation may take between 2½ - 3 hours. Schools with candidates in excess of this number should allow a whole day.

The timing of the visit will depend on the series for which the candidates are entered. However, it is envisaged that the majority will take place in the spring preceding the summer entries. Please note that if a small number of candidates are entered, it is highly likely that other evidence such as video evidence would be required and that the centre would not receive a moderator visit at this time.

### **5.3 Administrative Arrangements**

For further details of administrative arrangements, please refer to the WJEC Entry Pathways specification, which includes information about:

- Entry Procedures
- Internal Assessment and External Moderation
- Awarding and Reporting
- Issue of Results
- Access Arrangements
- Post-Results Services

## 2. Amplification of Content

The following suggestions should be considered in the context of:

- the level the learner is working at;
- providing opportunities for progression;
- Centre facilities and resources.

Candidates should be encouraged to participate in a variety of individual/partner activities as well as their own specialist activity.

**LO1** Candidates will need to learn:

- About the main rules of the game/sport.
- How to play within the rules/conventions of the sport

**LO2** Candidates should be taught how to make judgements about what would be the appropriate action to take during a game/competition.

Entry 2 candidates should explore the basic options/decisions associated with the activity/position. Candidates might demonstrate their decision making in passive/modified situations as well as in full versions of the activity.

Entry 3 candidates should be introduced to simple tactical skills e.g. change of pace or identifying opponents' weaknesses. They should show their tactical awareness in full versions of the activity. They should be able to make judgements on appropriate activities to take in different situations.

**LO3** Entry 2 candidates might demonstrate their skills in passive situations as well as adapted/modified situations.

Entry 3 candidates will explore the full range of skills associated with the activity. They will demonstrate these in full-game situations.

**LO4** Candidates should be able to describe the actions they and others perform. They should be able to identify some of the main points which will help them perform these activities more competently.

Entry 2 candidates should be able to make suggestions about how they could improve their performance.

Entry 3 candidates should be able to make suggestions about how they could improve their performance and the performance of others.

Sufficient time should be given for students to practice their skills in order that they can identify any improvements made.

For both Entry 2 and 3, many aspects of reviewing performance will be apparent during their participation in the activity.

### 3. Delivery

#### 3.1 Planning Courses

Achievement of each unit is confirmed through a 'statement of achievement', so that learners will gain some recognition for all completed work. However, in planning courses teachers will need to consider the possible qualification outcomes for individual learners. **For full details of the qualifications (Awards and Certificates) that this unit may contribute to, and rules of combination, please refer to the WJEC Entry Pathways specification.**

This unit may be delivered along with the following units:

- Preparing for Sporting Activities (Entry 2)
- Gymnastic Activities(Entry 2/3)
- Adventurous Activities (Entry 2/3)
- Frequent and Regular physical Activity for Health, Fitness and Well-Being (Entry 2/3)

## 2. Amplification of Content

The following suggestions should be considered in the context of:

- the level the learner is working at;
- providing opportunities for progression;
- centre facilities and resources.

### LO1

Candidates will learn about how regular exercise improves their physical and mental well-being.

They will need to become involved in physical activity on a regular basis and consider the range of opportunities for physical activity in everyday life.

### LO2

Candidates will need to experience a wide range of activities which are designed to improve:

- Strength
- Stamina
- Power
- Speed
- Agility

They will need to understand why it is necessary to complete a 'balanced' circuit.

Candidates should experience circuits which are designed for specific purposes. They should select appropriate activities when planning their own circuit.

Candidates should understand how they can improve performance by increasing the difficulty of their circuit eg. Increasing the workload, increasing the number of sets completed.

### LO3

Candidates will need to experience a variety of methods of training and could for example be assessed in aerobic routines which include;

- Low impact exercises
- High impact exercises
- Strength exercises.

In this instance, candidates should learn to work with music and to develop rhythmic patterns of movement.

They could also be assessed in weight training and if so they would need to understand:

- The risks involved in using weights
- Why safe practice has to be observed
- The correct technique for different exercises
- How performance can be improved

Any appropriate method of training, **other than circuit training** which is covered in LO2, is acceptable.

### 3. Delivery

#### 3.1 Planning Courses

Achievement of each unit is confirmed through a 'statement of achievement', so that learners will gain some recognition for all completed work. However, in planning courses teachers will need to consider the possible qualification outcomes for individual learners. **For full details of the qualifications (Awards and Certificates) that this unit may contribute to, and rules of combination, please refer to the WJEC Entry Pathways specification.**

- Team Competitive activities (Entry 2/3)

#### 3.2 Resources

There are no particular books that cover this unit. Learners can find information using textbooks, websites, CD ROMs, magazines and newspapers.

Learners should have access to a range of suitable equipment/apparatus.

## 4. Assessment

#### **External Moderation**

WJEC appoints moderators whose task it is to monitor the standard of work in each of the centres involved. In order to carry out this essential process a moderator will visit the centre to see a representative sample of the practical activities offered.

Prior to the visit by the moderator, the teacher will have completed the attached Centre Assessment Record. These completed records will be handed to the moderator on his/her arrival at the school. It should be noted that where schools have up to 25 candidates moderation may take between 2½ - 3 hours. Schools with candidates in excess of this number should allow a whole day.

The timing of the visit will depend on the series for which the candidates are entered. However, it is envisaged that the majority will take place in the spring preceding the summer entries. Please note that if a small number of candidates are entered, it is highly likely that other evidence such as video evidence would be required and that the centre would not receive a moderator visit at this time.
