1. INTRODUCTION

The WJEC GCSE Modern Languages specification has been modified and updated for delivery from September 2009. The first awards will be made in Summer 2011.

This Guide is one of a number of ways in which WJEC provides assistance to teachers delivering the new specification. The guide takes the form of a resources map with links to relevant sections on the subject pages. Also essential to its introduction are the Specimen Assessment Materials (question papers and marking schemes) and professional development (INSET) conferences.

Other provision which you will find useful are:

- Examiners' reports on each examinations series
- Free access to past question papers via the WJEC secure website
- Easy access to specification and other key documents on main website
- [Itemised feedback on outcomes for candidates at question level]
- Regular INSET delivered by Chief Examiners
- [Additional materials on the National Grid for Learning Wales (NGfL Cymru)]
- Easy access to both the Subject Officer and to administrative sections
